^{**} Year 2008 proposal of the Board of Directors

Hannu Syrjänen, President and CEO

"Sanoma's result for 2008 was a good one. Our operating profit excluding non-recurring items remained nearly at the previous year's level, even though the advertising market in many countries reacted strongly to the general economic uncertainty towards the end of the year.

During the year, Sanoma Learning & Literature successfully expanded its educational publishing business in Poland and language services in the Nordic countries. Sanoma Magazines expanded its magazine and digital service portfolio in all countries of operation. Sanoma News also invested in digital services. Digital operations accounted for over 11% (8% excluding TV operations) of the Group's net sales.

In the third quarter, restructuring measures were initiated in the multi-volume book and yearbook businesses. Meanwhile, the outlook of the economy and the depreciation of currency exchange rates caused the Group to record an impairment loss for the Central Eastern Europe and Russia magazine operations in the fourth quarter. Estimating the development of advertising in 2009 is difficult. We are preparing for the future by stepping up the cost-saving programmes and structural reforms implemented in 2008 across all businesses.

The current market situation brings, in addition to challenges, many interesting new opportunities. Our goal is to be one of the leading European media companies. We focus on consistent, sustainable growth and improved profitability. We want our consumer and business-to-business products and services to constitute a balanced business portfolio.

Magazines and newspapers, educational publishing and language services as well as online operations are the core of our business. Our goal is to be the leading player in both print magazines and online. We will be actively developing our newspaper business to maintain our profitability and to ensure controlled migration to online. We will continue with the international expansion of our educational publishing and language services, and we are investigating opportunities to internationalise our television operations. We want to take full advantage of our strategic position in the retail business. Our position as a market leader will bring us added value, especially in the current market situation."

Outlook for 2009

In 2009, Sanoma's net sales are expected to decrease somewhat. The Group's operating profit excluding non-recurring items is estimated to decline from the previous year. In the comparable year of 2008, operating profit excluding non-recurring items was EUR 295.7 million. The Group's financial expenses are expected to decrease, and as a result, Sanoma's net result for 2009 is expected to decrease less than its operating profit.

In the first quarter of 2009, development is expected to be significantly weaker than in the full-year due to especially decreasing newspaper advertising affecting the Sanoma News division and currency exchange rate fluctuations and the growth of seasonal educational publishing business impacting the Sanoma Learning & Literature division.

The outlook of Sanoma's net sales and operating profit in 2009 is affected by the overall economic development in the Group's countries of operation, and the development of advertising and private consumption in particular. Advertising is expected to decrease in the primary markets in 2009. Sanoma will continue its focus on investing in digital media and strengthening its market positions. At the same time, the Group will increase the efficiency of its operations in all markets.

Net sales

In 2008, Sanoma's net sales grew by 3.5%, totalling EUR 3,030.1 (2007: 2,926.3; 2006: 2,742.1) million. Out of the divisions, Sanoma Magazines, Sanoma Learning & Literature, Sanoma Entertainment and Sanoma Trade increased their net sales. Growth was strongest in Sanoma Learning & Literature. Net sales in Sanoma News were slightly down because of the decline of the advertising market towards the end of the year. Net sales adjusted for changes in the Group structure increased by 2.4%.

Advertising sales accounted for 25% (24%) of the Group's total net sales. Particularly the online advertising grew. In geographical terms, Finland accounted for 49% (49%) of net sales, with other EU countries accounting for 46% (46%) and non-EU countries for 5% (5%).

Result

Sanoma's operating profit excluding non-recurring items was EUR 295.7 (305.2) million. The operating profit included a total of EUR -59.3 (38.6) million in non-recurring items. During the financial period, non-recurring capital gains were realised from the sale of the movie distribution company R.C.V. Entertainment, as well as real estate. Non-recurring expenses were the result of write-downs of goodwill, immaterial rights and inventories, as well as costs associated with the restructuring of the multi-volume book and yearbook businesses.

The Group's operating profit was EUR 236.3 (2007: 343.8; 2006: 292.5) million or 7.8% (2007: 11.7%; 2006: 10.7%) of net sales. Operating profit increased in Sanoma Learning & Literature, where educational publishing was particularly successful, and Sanoma Entertainment. The recording of a non-recurring impairment loss impacted the operating profit of Sanoma Magazines. The operating profits of Sanoma News and Sanoma Trade decreased.

Sanoma's net financial items totalled EUR -51.0 (-35.7) million. Financial income amounted to EUR 18.9 (9.2) million. Financial expenses amounted to EUR 69.9 (44.9) million and were comprised primarily of interest costs of EUR 56.3 (41.4) million on interest-bearing liabilities. Financial expenses increased due to the rise in reference rates.

The result before taxes was EUR 190.3 (320.4) million and earnings per share were EUR 0.72 (1.47). The Group's effective tax rate rose exceptionally to 36.5% (23.2%) as a result of the impairment recognitions on the fourth quarter. Excluding these impairments, the tax rate would have been 27.5%. The profit for the year totalled EUR 120.8 (246.1) million.

Balance sheet and financial position

At the end of the year, the consolidated balance sheet totalled EUR 3,278.7 (3,192.3) million. Cash flow from operations was EUR 250.3 (227.9) million and cash flow per share was EUR 1.56 (1.38). Cash flow from operations increased as a result of more effective working capital management by the Group – despite acquisitions, Sanoma's working capital only increased slightly.

At the end of December, Sanoma's equity ratio was 40.0% (45.4%). The equity ratio and other balance sheet items were impacted by the impairment losses recorded in the magazine business, corporate acquisitions and the repurchases of own shares. Net gearing increased to 78.5% (58.2%). Equity totalled EUR 1,237.1 (1,364.2) million. A total of EUR 47.6 million was spent on repurchasing of treasury shares. Return on equity (ROE) was 9.1% (2007: 18.6%; 2006: 17.7%), and the return on investment (ROI) was 10.7% (15.9%). Interest-bearing liabilities increased to EUR 1,082.6 (881.4) million and interest-bearing net debt to EUR 971.6 (793.3) million. The debt was mainly driven by the acquisition of the Polish educational publisher Nowa Era and other acquisitions. At the end of December, the Group's cash and cash equivalents totalled EUR 110.9 (88.1) million. At the end of December, the Group had a net debt/EBITDA ratio of 2.1.

Sanoma's financial position is stable as a result of the Group's strong balance sheet, steady cash flow and a syndicated, long-term credit line. Sanoma has no need of instalments of long-term loans. This credit line agreement worth a total of EUR 802 million is in effect until autumn 2012. Sanoma Corporation does not have any other significant agreements covered by the statutory obligation to disclose. In addition, the Group has, within the scope of normal business operations, agreements or agreements as a whole containing a standard change-of-control clause.

Investments, acquisitions and divestments

In 2008, investments in tangible and intangible assets totalled EUR 109.9 (90.5) million, and were focused, for example, on ICT systems, replacement investments and improvement of real estate. R&D expenditure was recorded at EUR 4.1 (2.0) million or 0.1% (0.1%) of net sales. Acquisition costs of Sanoma's acquisitions during the year totalled EUR 190.7 (67.5) million.

On 10 January 2008, Sanoma Magazines divested the Dutch movie distribution company R.C.V. Entertainment. In 2007, the company's net sales amounted to EUR 34.2 million and operating profit to about EUR 5 million. Capital gains amounting to EUR 23.5 million were recorded in the first quarter of 2008 for the transaction.

On 11 March 2008, Sanoma Learning & Literature finalised its acquisition of the Polish educational publisher Nowa Era. In 2007, Nowa Era's net sales amounted to about EUR 43 million, and the company's profitability was in line with the general level of good profitability in educational publishing. The acquisition resulted in a significant improvement

in Sanoma Learning & Literature's March–September result. Due to the seasonal nature of Nowa Era's business, the first and fourth quarters typically post losses. Goodwill amounting to EUR 54.6 million was recorded for the transaction.

The most significant acquisition of the comparable year was that of the Auto24.ee marketplace.

In 2008, Sanoma News' operating profit decreased by 15.3%, totalling EUR 57.3 (67.6) million. The operating profit did not include non-recurring items. The operating profit of the Helsingin Sanomat business unit decreased from the comparable period due to the decline in job and real estate advertising and increased marketing investments. The operating profit of the IIta-Sanomat business unit was reduced by the decline of the tabloid market, price competition and investments in digital business. Other publishing improved its result thanks to the discontinuation of the printed version of Taloussanomat and other cost-saving measures. Earnings from other operations were down. In October–December, Sanoma News' operating profit totalled EUR 9.4 (13.6) million. The result of the fourth quarter was affected by the rapid decline of newspaper advertising, especially classified advertisements, towards the end of 2008.

In 2009, the media advertising market is challenging and of low predictability. Sanoma News has launched a rationalisation programme to secure its competitive advantage. At the same time, Sanoma News will continue the determined development of its printed products and digital services.

In 2009, net sales and operating profit excluding non-recurring items of Sanoma News are estimated to decline clearly from the previous year due to the decline of the advertising market.

In 2008, Sanoma Entertainment's net sales increased by 7.6%, totalling EUR 157.1 (146.0) million. This clear increase in net sales was brought about in particular by the new TV and radio channels and the growth of Welho. Adjusted for changes in the Group structure, the Division's net sales grew by 4.2%. Advertising sales accounted for 52% (54%) of Sanoma Entertainment's net sales. Television advertising declined in October–December thus decreasing the net sales of Sanoma Entertainment by 3.6% in the fourth quarter of the year. In October–December, Division's net sales were EUR 41.0 (42.5) million.

Net sales from broadcasting operations in 2008 were EUR 88.9 (83.2) million. The increase was largely due to new channels. According to TNS Gallup Adex, Finnish television advertising grew by 2%. Nelonen Media's combined share of all television advertising was 29.5% (29.3%). The television channels of Nelonen Media increased their viewing shares, with their combined commercial viewing share reaching 29.6% (26.8%) in 2008. The viewing of Jim, launched in February 2007, increased the most. Another free, new television channel called Liv is due to launch in February 2009.

Radio Rock and Radio Aalto have continued to strengthen their market shares. Radio Rock had an average of 750,000 listeners each week. Radio Rock is the market leader among males aged 20–44. According to the Association of

Finnish Broadcasters, national radio advertising in 2008 grew by 9.4%, and Nelonen Media's radio stations have increased their market share to 11.8%.

Net sales from other operations increased clearly in 2008 due to Welho's strong pay TV and broadband sales. Pay TV business was boosted by investments focused on offering more High Definition (HD) channels. The range of broadband options also increased. The usage of Sanoma Entertainment's online casual gaming sites increased clearly during the year.

In 2008, Sanoma Entertainment's investments in tangible and intangible assets totalled EUR 13.5 (14.8) million, most of which was allocated to the development of Welho's cable network and services. There were no major acquisitions in 2008. The most significant acquisition of the comparable year was the purchase of the Urheilukanava channels.

In 2008, Sanoma Entertainment's operating profit increased clearly, by 9.6%, totalling EUR 17.3 (15.8) million. This increase was driven by improved profitability due to the growth of broadcast operations and the positive development of Welho. The operating profit did not include non-recurring items. The operating profit for October–December was EUR 4.1 (5.4) million. Towards the end of the year, the operating profit was impacted by the decline of television advertising sales. Radio advertising continued to increase clearly also during the last months of 2008.

In line with its strategy, Sanoma Entertainment focuses on its core businesses: television, broadband services and consumer entertainment services. Sanoma Entertainment continues to develop its digital content and media solutions business, invest resources in the development of its online services and in its viewing and listening shares.

In 2009, Sanoma Entertainment's net sales and operating profit excluding non-recurring items are expected to be at the previous year's level.

Sanoma Learning & Literature's net sales in 2008 increased by 20.9% and totalled EUR 390.0 (322.5) million. Both the educational publishing and publishing grew. Net sales adjusted for changes in the Group structure grew by 5.1%. A total of 62% (62%) of the Division's net sales came from outside of Finland. In October–December, the Division's net sales grew by 28.6% to EUR 88.0 (68.5) million. Most growth in the fourth quarter came from Polish e-learning operations of YDP.

Educational publishing's net sales increased to EUR 259.4 (197.7) million. Most growth came from Poland, both from new educational publishing operations of Nowa Era, consolidated at the end of the first quarter as well as from the existing e-learning business of Young Digital Planet, which was able to deliver government tenders in the fourth quarter. In the Netherlands, the net sales were almost at the comparable year's level. Educational materials to primary and secondary schools performed well, but sales of ancillary businesses like the edutainment products decreased sligthly. In Finland, sales of educational materials were almost at the previous year's level and the new edutainment product series Oppi & Ilo was received positively in the market. Net sales increased clearly in Belgium, with especially Flemish market growing. Net sales grew also in Hungary, where both NTK and Perfekt won government contracts.

Net sales in publishing grew to EUR 104.2 (97.3) million mainly due to increased sales of language services. General literature sales were at the previous year's level. Sales of domestic fiction and non-fiction developed well, boosted by two literature awards, Finlandia Prizes, won by WSOY's authors on the fourth quarter. However, sales through direct channels in all Nordic countries were under pressure and expectations for the future were revised in the third quarter. A restructing project in Bertmark's and Weilin+Göös' multi-volume book and annual year book businesses was started to safeguard the future profitability of the publishing. Business information, especially the language services, performed well. Partly the increase of sales is due to new operations acquired by translation and localisation company AAC Global both in 2007 and 2008. Language services is one of the growth platforms in the Sanoma Group.

Net sales from other operations, mainly printing, totalled EUR 49.8 (51.1) million.

Sanoma Learning & Literature's investments in tangible and intangible assets totalled EUR 15.6 (7.7) million in 2008. They mainly comprised ICT investments and improvement of real estate. The most significant acquisitions were those of the Polish educational publisher Nowa Era and the Swedish language service provider Interverbum. In the comparable year, the most significant transaction was the acquisition of Translation Services Noodi.

The Division's operating profit excluding non-recurring items grew by 19.5%, to EUR 53.2 (44.5) million. Operating profit included EUR 7.6 (0.0) million of non-recurring expenses related to write-offs and other restructuring costs of multi-volume and year book operations. Operating profit in 2008 grew by 2.4% and amounted to EUR 45.6 (44.5) million. Sanoma Learning & Literature's operating loss excluding non-recurring items in October–December totalled EUR 11.6 (6.6) million due to new educational publishing operations, which strengthened the seasonality of the Division.

In 2008, the educational publishing business improved its operating result significantly with the new Polish operations contributing the most to the growth. In publishing, business information and general literature performed well, but write-offs and restructuring costs in Bertmark's and Weilin+Göös' direct sales decreased operating result in publishing. Results in other operations were below the comparable year.

The Division's business is very seasonal. Profit in educational publishing is mainly accrued in the second and third quarters. The acquisition of Nowa Era adds to growth in the educational publishing business and therefore strengthens seasonality in the Division.

Sanoma Learning & Literature continues to focus on further internationalising its educational business, expanding language services and maintaining market leadership in Finnish general literature publishing.

In 2009, net sales and operating profit excluding non-recurring items of Sanoma Learning & Literature are estimated to decrease slightly from the previous year's level. The development of net sales and operating profit is also strongly affected by the exchange rates of Sanoma Learning & Literature's operating countries.

In 2008, Sanoma Trade's net sales increased by 2.0%, totalling EUR 866.6 (849.3) million. Net sales increased clearly in kiosk operations and movie operations. Net sales adjusted for changes in the Group structure increased by 2.9%. Of Sanoma Trade's net sales, 33% (34%) came from outside Finland. In October–December, Division's net sales of EUR 239.3 (241.1) million were in line with the comparable period. Kiosk and movie operations also enjoyed success in the fourth quarter. However, the decline in press distribution and bookstore sales slowed down the increase in net sales.

Net sales from kiosk operations increased to EUR 409.4 (385.5) million. Finnish R-kiosks had their best year in history. Kiosks increased their net sales and customer numbers as a result of marketing investments. Net sales from kiosks continued to rise in the Baltic countries. The R-kiosk product range was actively developed during the year. In addition, during the year the R-kiosk chain expanded in Russia and also to Romania, where the first R-kiosks opened their doors in July 2008.

Net sales from press distribution were EUR 241.5 (245.5) million. Net sales in Finland increased slightly despite the fall in tabloid sales. Point-of-sale (POS) marketing company Printcenter did extremely well. Press distribution also increased its net sales in Estonia, Lithuania and Russia. In Romania, net sales remained at the previous year's level. The Dutch press distribution market has shrunk, which decreased the net sales of Aldipress. The efficiency improvement programme initiated at Aldipress in the autumn of 2007 is progressing.

The net sales of bookstores were EUR 139.2 (140.3) million. The net sales of the comparable period included the annual volume business divested in May 2008. Bookstore net sales increased in both Finland and Estonia.

The net sales from movie theatres increased to EUR 94.3 (85.5) million. Sales increased in Finland, Latvia and Lithuania, and movie admissions continued to grow. Movie theatres in Finland broke the all-time box office record in November. New multiplex theatres were opened in Finland and Lithuania. The viewing experience was diversified by the latest 3D technology and new alternative content, such as sports and cultural events.

In the comparable period, net sales from other operations totalled EUR 10.4 million, consisting of the multi-purpose arena in Hamburg divested in October 2007.

In 2008, Sanoma Trade's investments in tangible and intangible assets totalled EUR 33.8 (28.4) million, and focused mainly on new multiplexes, ICT projects, as well as the expansion of the dispatch department. The most important acquisitions of the year included minority shares in the Latvian movie theatre operator Forum Cinemas and Lithuanian press distributor Impress Teva, and the acquisition of the Russian kiosk chain KP Rosnitza. In the comparable period, the most important acquisitions were Printcenter in Finland, and the kiosk and press distribution companies Press Point International and HDS CIS in Russia.

In 2008, Sanoma Trade's operating profit excluding non-recurring items decreased by 13.9%, totalling EUR 45.1 (52.4) million. In the comparable period, the operating profit included a total of EUR 3.2 million in non-recurring items from the sale of the multi-purpose arena, other real estate and the restructuring of Dutch press distribution operations. In 2008, operating profit decreased by 18.8%, totalling EUR 45.1 (55.6) million. Operating profit for October-December excluding non-recurring items was EUR 14.7 (18.2) million. Operating profit for the fourth quarter was particularly affected by cost increases in several businesses.

Operating profits from kiosk operations and press distribution were down. The results were above all affected by investments in Russia and Romania. In addition to investments, the operating profit of press distribution was also impacted by smaller distribution volumes in the Netherlands. The result of the bookstores was burdened by the relaunch costs of the online store. Operating profit from movie operations remained at the comparable period's level.

In addition to the home markets of Finland and the Baltic countries, Sanoma Trade's expansion and development efforts will also focus on the emerging economies of Russia and Central Eastern Europe. Sanoma Trade's goal is to achieve a strong position in these countries and participate actively in the development of the local newspaper and magazine markets.

In 2009, Sanoma Trade's net sales and operating profit excluding non-recurring items are expected to be at the previous year's level.

After the review period, on 10 February 2009, Sanoma's Board of Directors decided to cancel all treasury shares held by the Company. The cancellation will not affect the Company's share capital. Due to the rapidly declining general economic situation, Sanoma News initiated a rationalisation programme in January 2009. In addition to a variety of cost-saving measures, the Division expects to reduce its workforce by 100–200 employees through voluntary severance packages. Negotiations involving smaller staff reductions have also been initiated in other parts of the Group.

The AGM of 1 April 2008 confirmed the number of Sanoma's Board members at ten. Board authorisations

The AGM held on 1 April 2008 authorised the Board of Sanoma to decide on the repurchase of the Company's own shares, valid until the AGM of 2009.

A maximum of 8,285,000 shares may be repurchased, corresponding to 5.1% of the Company's shares and voting rights at the end of March. These treasury shares will not be repurchased in proportion to the shareholdings of the existing shareholders. They will be repurchased with the Company's unrestricted equity at the market price at the time of acquisition on NASDAQ OMX Helsinki. However, the minimum purchase price of a share is the lowest market price in public trading and the maximum purchase price is the highest price quoted in public trading during the authorisation period. The Board decided on 1 April 2008 to deploy the authorisation and the repurchases of own shares commenced on 12 June 2008.

In addition, the Board has a valid authorisation to increase the share capital. According to the authorisation issued by the AGM on 4 April 2007, the Board may decide, until the AGM of 2010, on the issue of new shares, the transfer of treasury shares and the granting of special rights entitling to shares. The authorisation does not exclude the right of the Board of Directors to decide on a directed share issue. With this authorisation, and as a result of the use of special rights, the Board is authorised to decide on the issuance of a maximum of 82,000,000 new shares and the transfer of a maximum of 5,000,000 treasury shares. In a directed share issue, a maximum of 41,000,000 shares may be issued or transferred. With this authorisation, the Board is authorised to issue a maximum of 5,000,000 stock options as part of an incentive programme within the Company. Under the authorisation, the Board decided on 19 December 2008 on the issuance of Stock Option Scheme 2008.

During the review period, the authorisation by the AGM of 4 April 2007 for repurchasing own shares was in force. The authorisation allowed repurchasing a maximum of 8,200,000 Company shares. These shares were not to be repurchased in relation to the holdings of existing shareholders. They were repurchased with the Company's unrestricted equity at the market price at the moment of repurchasing – however, in such a way that the minimum purchase price of a share was the lowest market price in public trading and the maximum purchase price was the highest price noted in public trading during the authorisation period. The share repurchases commenced on 10 August 2007, and the authorisation remained valid until 1 April 2008.

Other resolutions by the AGM

The AGM decided to amend Article 1 (the Company's business name and domicile) of Sanoma's Articles of Association as proposed by the Board. The Company's new business name is Sanoma Oyj in Finnish, Sanoma Abp in Swedish, and Sanoma Corporation in English. The Company's registered office continues to be in Helsinki. The new name was adopted on 1 October 2008.

At the same time, the names of divisions were harmonised. The Group now consists of the following divisions and reporting segments: Sanoma Magazines, Sanoma News (formerly Sanoma), Sanoma Entertainment (formerly SWelcom), Sanoma Learning & Literature (formerly SanomaWSOY Education and Books) and Sanoma Trade (formerly Rautakirja).

Seasonal fluctuation

The net sales and result of Sanoma Magazines, Sanoma News and Sanoma Entertainment are particularly affected by the development of advertising. Advertising sales are influenced, for example, by the number of newspaper and magazine issues published during each quarter, which varies annually. Television advertising in Finland is usually strongest in the second and fourth quarters. The exact date of Easter has an impact on the net sales accumulated from newspapers and distribution when comparing quarters in these businesses on a year-to-year basis.

Educational publishing accrues most of its net sales and results during the second and third quarters.

A major portion of the net sales and results in retail are, on the other hand, generated in the last quarter, particularly from Christmas sales. Of course, the number of shopping days and, for example, the distribution of holidays over different quarters also impact the net retail sales between quarters.

Seasonal business fluctuations influence the Group's net sales and operating profit, with the first quarter traditionally being clearly the smallest.

Significant risks and uncertainty factors

Management of business risks and the opportunities associated with them is included in the daily responsibilities of Sanoma's management. The management takes calculated risks in order to ensure that the Company develops its business as successfully as possible.

The most significant risks and uncertainty factors Sanoma is facing are described in the Financial Statements, together with the main principles of risk management. The most significant uncertainty factors of the current year are related to the growth of media advertising and consumer spending, as well as the development of currency exchange rates. Due to the general economic uncertainty, reliable estimates on, for example, the development of media advertising in the Group's various markets are not available. Sanoma expects media advertising to decrease in 2009. The rapid decline of media advertising and consumer confidence can affect the Group result.

Sanoma's stable business, strong balance sheet and current loan agreements ensure the Group's financial position, if the uncertainty in the financial markets continues.
