Group outlook for 2013

Published on 23 July 2013

In 2013, Sanoma expects that the Group's consolidated net sales will decline more than 4% compared to 2012 and operating profit excluding non-recurring items is estimated to be below EUR 180 million.

Sanoma's outlook is based on the assumptions that the European economic environment remains under pressure and adversely impacts advertising markets in Sanoma's main operating countries. The likelihood of clearly improving market conditions in the second half of the year is estimated to be low.
